FALL/WINTER 2015

CONFIDENT WHEN IT MATTERS

HELLY HANSEN CATWALK

Scandinavian Design is the cornerstone in all Helly Hansen gear. The optimal combination of purposeful design, protection and style. This is why professional athletes, patrollers and discerning enthusiasts choose Helly Hansen.

HELLYHANSEN.COM

CONFIDENT WHEN IT MATTERS

CONTENT

DURING THE COLDER HALF OF THE YEAR THE CLIMATE BECOMES MORE CHALLENGING, BUT THE SCANDINAVIAN PEOPLE CONTINUE LIVING THEIR ACTIVE LIFESTYLE. THEY MAKE THE MOST OF WHAT NATURE BRINGS. THEY EXPLORE THEIR SURROUNDING NATURE NO MATTER WHERE THEY LIVE, THEY ENJOY THE OUTDOORS EVEN IF IT RAINS. THEY TRAIN IN STYLE WHEN THE TEMPERATURE DROPS AND WHEN THE SNOW FALLS THEY EMBRACE IT AND LIVE THE WINTER LIFE TO THE FULLEST...

ON THE HELLY HANSEN CATWALK

For Autumn / Winter 2015 we have pushed the boundaries of what Style and Performance is all about, with a collection that blends together more style, performance and versatility than ever.

This season sees the expansion of Ask & Embla, our high-end collection, available in a limited edition only. Ask & Embla is the epitome of our design philosophy, perfectly blending protection from the elements, comfort, versatility and beautiful Scandinavian design.

Our exclusive Wintersports collection – Epique Red, lifts Helly Hansen Skiwear to an unexpected level of style. Drawing its inspiration from mid-century icons and confident heroes, its technical features and silhouettes have been designed to appeal to the most style-conscious consumers. The collection’s palette is decidedly fashion-driven, leaving traditional performance colors behind. The women’s collection has been infused with beautiful, feminine Swarovski ® details, which can also be found in a range of matching accessories and base layers.

The God of Ski- ULLR gives the name to our new free- ride Wintersports line. The collection offers shell and insulated garments in a range of bright colors inspired by Scandinavian nature, designed to provide the maximum protection, comfort and style for randonee and free-ride skiing. The minimalistic and purposeful Scandinavian design language is reflected through durable details, back pack compatible pocket placements, and High-Vis details which will ensure ULLR products stand out both on the mountain as well as on the shelves.

To respond to the growing trend of cross-over products we offer an updated range of versatile ski jackets with great every day potential, which will keep you protected, stylish, and confident on the slopes as well as in the city.

Inspired by our Marine heritage, the Autumn / Winter 15 Sportswear collection brings exciting variations to the classical winter parka with nautical designs and details inspired by our Ocean Racing collections. These beautiful and purposeful styles combine Scandinavian design and protection, making it easy to be well dressed no matter the weather.

Our Rainwear collection has been thought-out and designed to provide the best in style and protection against the elements. The minimalism of Scandinavian design permeates the entire collection, from the sleek and fashionable men’s styles to the soft shapes and warm layers of the women’s line.

During the second half of the year the cold settles in and the days get shorter, but don’t let darkness put you off evening runs. We had the runners’ safety and comfort in mind when we designed and developed the Norviz program for Training. It is a simple and efficient concept: beautifully designed products that reveal hidden reflectivity when exposed to vehicle lights on poorly-lit roads, keeping you safe, stylish and confident throughout the dark season.

Finally, our base layer collection is expanded with the addition of a 100% premium Merino Wool program. Combining style and performance, we have turned the warm and comfortable wool fabric into a backdrop for exciting patterns and landscapes drawn from our Nordic heritage – from snowy peaks and dramatic sunsets, to delicate blooms and psychedelic northern lights.

FW15 CAMPAIGNS

HELLY TECH®

PROFESSIONAL
For extremely challenging wet, cold and windy conditions and the toughest physical challenges, Helly Tech® Professional will keep you dry, warm and confident. The highly advanced Helly Tech® Professional fabrics are engineered to meet the most demanding professional requirements. They push the boundaries of technical fabric engineering and offer waterproof and breathability ratings tailored to the unique performance needs of professionals. All seams are fully taped and welded to our highest specifications for long lasting, professional grade performance.

The Helly Tech® Professional 3Ply latest development is enhanced with Flow membrane technology enabling an unparalleled breathability while still keeping the high level of protection on guides are demanding from their shells.

PERFORMANCE
For high intensity challenges in any weather conditions Helly Tech® Performance gear will keep you dry, comfortable and confident throughout your adventure. Specifically designed Helly Tech® Performance fabrics deliver sport specific performance with high waterproof and breathability ratings to keep you comfortable and focused on your challenge. All seams are fully taped for optimum waterproof performance.

PROTECTION
For everyday use and moderate weather conditions Helly Tech® Protection gear will keep you dry, comfortable and protected. Since the 1980's Helly Tech® fabrics have kept outdoor enthusiasts dry and comfortable by letting condensation and perspiration escape while keeping rain, wind and snow out. Helly Tech® Protection gear is fully seam sealed, waterproof, windproof and breathable.

H²FLOW™

H²Flow™ allows you to control your body's temperature. The insulation concept uses air to provide warmth and ventilation and lets you control the airflow that cools you down when necessary.

OFFICIAL BASELAYER OF
THE U.S. ALPINE SKI TEAM

TECHNOLOGIES

BASELAYER

We believe Lifa® is simply the best moisture management technology on the planet. When you listen to what gear editors, outdoor pros and consumers are saying, our view seems to be well supported!

When doing high-energy activities, too much sweat can make you cold and uncomfortable. Lifa® Stay Dry technology is based on a fiber that is constructed in a completely different way than most other synthetic base layers on the market.

Our biggest invention within base layer technologies – Lifa® Flow, is a construction combining Helly Hansen's unique Flow technology with Lifa® Stay Dry technology fibers. Lifa® Flow delivers super quick drying next to skin, faster than other base layers on the market, and guarantees that you'll always feel dry and comfortable.

X-COOL

X-Cool quick dry fabric will cool you down when performing high intensity activity. Quick dry - Cooling - Performing.

CIS

With our new 3-in-1 jackets you will be ready for a wide range of temperatures, weather conditions and levels of activity.

To meet personal preferences and individual needs our Component Insulating System (CIS) add another dimension of versatility and style to 3-in-1 jackets. With standardized zip-in solutions the jackets and midlayers can be used together, interchanged and customized to create your own perfect 3-in-1 solution.

RECCO®

technology makes you searchable for organized rescue in the event of an avalanche accident. The two-part technology consists of a detector used by the rescuers and reflectors that are integrated into the apparel. Together they enable directional pinpointing of a victim's precise location using harmonic radar. The system requires no training and no batteries to function, meaning it is always "on" and ready. RECCO® reflectors do not prevent avalanches nor do they guarantee location or survival in the event of a burial.

PRIMALOFT

PrimaLoft® is a synthetic insulation technology, offering superior thermal properties with excellent water repellency. It is made up of ultra-fine fibers that form air pockets to trap heat inside.

POLARTEC

We work extensively with Polartec®, a famous manufacturer of lightweight and warm fleece, which is known for performance, durability and aesthetics. We use our combined knowledge of fleece fabrics to keep you warm and dry.

ALLIED DOWN

Allied Feather & Down Corporation is a leader in quality and a reliable source for top quality, high fill power down and feathers. The high quality European Down have outstanding warmth-to-weight ratio and unmatched longlasting loft.

For AW 2015, we have coded each individual product denote when that product will be sold - and we'll give you some help to pick winners as well:

No seasonal code

This means that the product is available for the whole season and can be bought right up to the final cut off for the season.

Fall

Fall product is only available for the Fall season and will be shipped from July to September. Our cut off for orders is mid February for Europe and mid January for N.America.

BTS product is available for June/July delivery.
Customer order cut off 10th December

Winter

Winter product is only available for the Winter season and will be shipped from mid September to end December. Our cut off for orders is mid March in Europe and mid February in N.America. We will accept orders in April and May on a case by case basis and based upon availability after the final cut offs.

Best Seller

These are our "core" products where we have many years of successful sell thru in multiple channels and which can form the cornerstone of any HH assortment

Communicated style

New products that we intend to communicate across our marketing platforms. We hope these guides will simplify your assortment planning and buying and make 2015 our most successful year together.

H²Flow™ allows you to control your body's temperature. The insulation concept uses air to provide warmth and ventilation lets you control the airflow that cools you down when necessary.

WARMER. COOLER. LIGHTER.

To meet personal preferences and individual needs our Component Insulating System (CIS) add another dimension of versatility and style to 3-in-1 jackets. With standardized zip-in solutions the jackets and midlayers can be used together, interchanged and customized to create your own perfect 3-in-1 solution.

A full-page photograph of a man in winter attire. He is wearing a dark olive green parka with a large fur-lined hood, a grey knit beanie, a maroon hoodie with 'NORWAY' printed on it, and brown cargo pants. He is standing in a snowy outdoor environment, possibly near a wooden structure or cabin, with snow-covered ground and trees in the background.

RECCO® technology makes you searchable for organized rescue in the event of an avalanche accident. The two-part technology consists of a detector used by the rescuers and reflectors that are integrated into the apparel. Together they enable directional pinpointing of a victim's precise location

using harmonic radar. The system requires no training and no batteries to function, meaning it is always "on" and ready. RECCO® reflectors do not prevent avalanches nor do they guarantee location or survival in the event of a burial.

PrimaLoft® is a synthetic insulation technology, offering superior thermal properties with excellent water repellency. It is made up of ultra-fine fibers that form air pockets to trap heat inside.

COLOUR DIRECTION

women COLD FIRE

We introduce reds ranging from coral pink to classic red.

Based on various neutrals in various combinations the story transform between the categories.

It ranges from Black and white to bold and bright to classic Marine.

- cc. 964 Charcoal
- cc. 841 Penguin
- cc. 249 Secret Blue
- cc. 253 Silk Blue
- cc. 374 Metallic Silver
- cc. 811 Indi Blue
- cc. 689 Evening Blue
- cc. 001 White
- cc. 011 Offwhite
- cc. 276 Neon Pink
- cc. 808 Rosemist
- cc. 251 Pink Glow
- cc. 222 Alert Red
- cc. 110 Flag Red

women MOUNTAIN SPIRIT

Dark greens create the base of a new technical story.

With Black and white the story is built on a commercial base.

Dusty Powder and Sea Foam adds a very soft feminine twist and Neon pink an athletic twist.

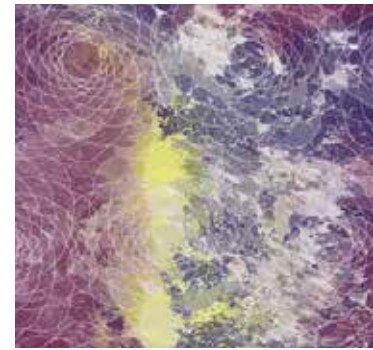

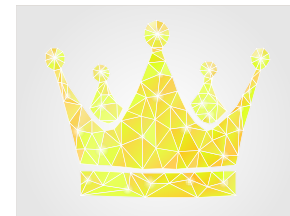

- cc. 001 White
- cc. 374 Metallic Silver
- cc. 841 Penguin
- cc. 818 Dusty Powder
- cc. 276 Neon Pink
- cc. 891 Sea Breeze
- cc. 468 Olive Night
- cc. 358 Stormy Green
- cc. 899 Rock
- cc. 990 Black

women WINTER PRINCESS

Based on various white shades, sometimes with a metallic twist this will be a true winter story.

We continue to reflect the Purple and Orange trend by introducing multiple shades of these, also fulfilling the needs of colour in some categories.

When used in Ullr or Training we add the functionality of Neon Yellow or Orange.

- cc. 011 Offwhite
- cc. 992 Eggshell
- cc. 384 Metallic Pearl
- cc. 279 Neon Yellow
- cc. 278 Neon Orange
- cc. 895 Light Orange
- cc. 248 Sweet Lilac
- cc. 890 Glacial Purple
- cc. 283 Princess Purple
- cc. 815 Midnight Rose

Men CLASSIC RACE-RED

Classic red is mixed with blues and white to create a true race story for ocean or mountain.

Silver and reflective details gives both a high end technical look and great function.

- cc.001 White
- cc.841 Penguin
- cc.374 Metallic Silver
- cc.292 Deep Blue
- cc.576 Deep Steel
- cc.811 Indi Blue
- cc.110 Flag Red
- cc.222 Alert Red

Men COLD WATER

Cold water is an all blue theme mixing several new shades in with Cobolt Blue.

This is highlighted with Silver, often visualized in functional reflex.

In our Training line it is topped with Neon Yellow.

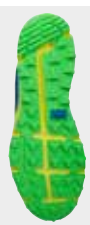

- cc.374 Metallic Silver
- cc.292 Deep Blue
- cc.576 Deep Steel
- cc.811 Indi Blue
- cc.519 Cobalt Blue
- cc.279 Neon Yellow

Men CLASSIC RACE-GREEN

Strong green pop is mixed with darker blues and white to create a true race story for various areas.

Silver and reflective details gives both a high end technical look and great function.

- cc.001 White
- cc.841 Penguin
- cc.374 Metallic Silver
- cc.597 Navy
- cc.292 Deep Blue
- cc.576 Deep Steel
- cc.811 Indi Blue
- cc.884 Paris Green
- cc.828 Tea Green

Men INNER FORCE

Inner force is based on greys and green tinted shades. We introduce new variations of orange to create updated expressions for different activities.

With black and white a racy Epic story appears. Touches of Neon Orange makes you visible on the mountain.

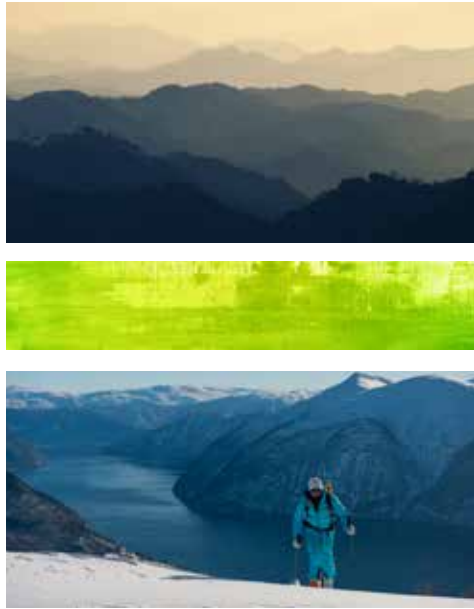

- cc.278 Neon Orange
- cc.817 Magma
- cc.816 Rusty Fire
- cc.468 Olive Night
- cc.899 Rock
- cc.358 Stormy Green
- cc.001 White
- cc.011 Offwhite
- cc.374 Metallic Silver
- cc.841 Penguin
- cc.964 Charcoal
- cc.990 Black

Men MOUNTAIN SPIRIT

Dark greens creates the base of this x-category story.

With Black and white shapes a racy Epic story. Together with bright colour and neon it appeals to the Free rider. In parkas and other casual mountain wear the greens are natural, and with a bright pop also sporty.

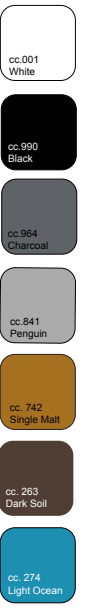

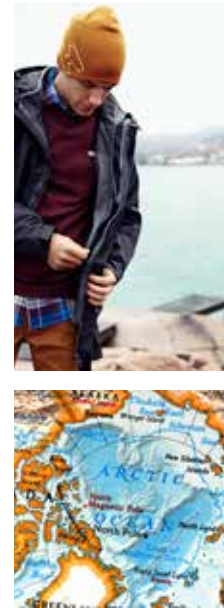

Silver details gives a technical look.

Men HEAVY CLOUDS

A new neutral colour story based on greys and the new browns in combination.

All highlighted with the seasonal bright blue.

We introduce technical brown in a Scandinavian combination with Evening blue and White. Various shades on yellow create a very bright colour story.

Neon Yellow is a sight off on Ullr.

Men MOUNTAIN GOD
